Summary

I am incredibly passionate about computer science and software engineering. Even if money wasn't a concern, I would still be programming. While I enjoy working on a range of CS related topics, my main area of interest right now is language design and implementation. I also volunteer at the Refugee Education and Training Center of Utah as an organizer and teacher for programming classes, and mentor students throughout the week.

Skills

Scala, Go, Ruby, Python, TypeScript/JavaScript, Elm, bash, Linux, software design and architecture, process automation, continuous integration, distributed systems, observability, planning and project management.

Experience

Staff Engineer, MX

April 2018 - Present

Played an active part in shaping our platform as both an individual contributor and a mentor to individuals and teams designing and developing solutions for a rapidly evolving industry and ecosystem.

- Member of the Enterprise Technical Office group where I dealt with high urgency client requirements and advised in project architecture and problem solving platform-wide.
- Led and owned new initiative to improve our client's developer experience. This included building SDKs for major mobile platforms. Evangelized this team's solutions and enhancements to internal and external parties.
- Technical lead to over a dozen backend and frontend engineers in the design and development of MXinsights, a financial feed product currently serving over 7 million users.

Software Engineer, Freelance, Minond, LLC

May 2017 - April 2018

Helped various companies dismantle and analyze problems, develop and vet new ideas and solutions, and build mission-critical products.

Software Engineer, Tech Lead, Domo, Inc.

December 2014 - May 2017

Worked on Domo Apps platform as a backend Scala engineer and on core Dashboard product as a frontend engineer.

Software Engineer, Tech Lead, InsideSales.com

January 2014 - November 2014

Software Engineer, DevOps, InsideSales.com

June 2013 - January 2014

Software Engineer, InsideSales.com

January 2012 - June 2013

Implementation Team Member & Manager, InsideSales.com

January 2009 - December 2011

Education

Utah Valley University, BS, Computer Science (Incomplete)

2009 - 2013

Volunteering

Programming Class Organizer, Utah Department of Workforce Services

2016 - Present

I organize and teach programming classes for refugees and members of my community.
