Summary

I am incredibly passionate about Computer Science and Software Engineering. Even if money wasn't a concern I would still be programming. While I enjoy working on a range of CS related topics, my biggest area of interest right now is language design and implementation. I also volunteer at the Refugee Education and Training Center of Utah as an organizer and teacher for programming classes, and mentor students throughout the week.

Skills

Go, Scala, TypeScript, JavaScript, Node.js, Elm, React, D3.js, bash, PHP, Linux, software design, process automation, continuous integration, distributed systems.

Experience

Software Engineer, *MX*   April 2018 - Present

Software Engineer, Freelance, *Minond, LLC*   May 2017 - April 2018

Previous positions have given me experience in breaking down problems, developing ideas, proving they are good and worth working on, and, of course, making them real. I help companies do these things.

Software Engineer, Team Lead, *Domo, Inc.*   December 2014 - May 2017

Frontend engineer working on a new zero state experience for the product, a report builder and scheduler, and more. I then joined another team as a backend Scala engineer and later became that team's lead.

Senior Software Engineer, Team Lead, *InsideSales.com*   January 2014 - November 2014

Lead of the PowerStandings team. Worked with my team to making the MVP production ready, improving the interface and user experience, and making the application standalone.

Software Engineer, DevOps, *InsideSales.com*   June 2013 - January 2014

Worked on bring in a more "DevOps-y" mindset into the department. Helped improve the development and deployment process for lots of services. Learned a lot about ops, systems, Linux.

Software Engineer, *InsideSales.com*   January 2012 - June 2013

Implementation Team Member & Manager, *InsideSales.com*   January 2009 - December 2011

Education

Utah Valley University, *BSc, Computer Science (Incomplete)*   2009 - 2013

Volunteering

Teacher and Tutor, *Utah Department of Workforce Services*   2016 - Present

I help organize and teach a Software Engineering and programming classes for refugees.
